Education

JavaScript	<u>Coder's Den</u>	Lagos, Nigeria (Remote)	10/2022 - Present
Software Engineering	<u>Altschool Africa</u>	Lagos, Nigeria (Remote)	04/2022 - Present
<ul style="list-style-type: none">• Major in Frontend Engineering			
Higher National Diploma	<u>Yaba College of Technology</u>	Yaba, Lagos, Nigeria	01/2020 - 04/2022
<ul style="list-style-type: none">• Major in Physics with Electronics			

Personal Projects and Others

- Built a responsive [counter app](#) with vue.js.
- Published my first technical [article](#) on how to build a counter app using a useReducer hook and a custom hook in react.
- Created a responsive [counter app](#) with react.js using useReducer hook and a custom hook, as my 3rd semester project.
- Built a basic [calculator app](#) that can perform 4 arithmetic operations which are addition, subtraction, multiplication and division.
- Developed a [website](#) that fetches users' data from an api (randomusers.me) and displays it on the screen.
- **Open Source:** Contributed to an open source project alongside 2 backend engineers and a ui/ux designer which increased my experience in using git and github by 50% .
